## RETAIL PRICE LIST

1894

OF

# Fruit and Ornamental Trees

Grape Vines, Small Fruits, Shrubs, Etc.

Cultivated and For Sale by

SPRING HILL NURSERY COMPANY,

GARDENIA, PRINCE EDWARD CO., VIRGINIA.

TELEGRAPH, EXPRESS AND FREIGHT OFFICE,

✻ PROSPECT, VIRGINIA. ✻

**W**E HEREBY return our sincere thanks for past favors, and solicit a continuance of the same, and a trial from those whom we have not dealt with.

We herewith present our **Retail Trade List**, and take pleasure in stating that our stock of Trees, Vines and Plants are thrifty, smooth and of unusually good quality, and strictly up to specifications.

We usually commence digging and shipping about October the 10th, and sometimes through the winter until late in the spring, interrupted only at intervals by the severest freezing weather.

If, in rare cases, we should be closed out of any particular varieties ordered, we reserve the right to substitute others of same ripening, considered by us equally desirable in all respects.

We exercise the greatest care to have all trees and plants true to name, but in case any should prove untrue, we are ready, on proper proof, to replace them free of charge, or refund the purchase price.

We pack all stock in the most approved manner, and deliver it F. O. B. at Prospect depot, Va., after which time the risk of transportation is entirely with the purchaser.

**Terms cash** in all cases; discounts as follows: on lots of sixty trees, plants or vines, at one hundred rates; on lots of twenty-five at fifty rates.

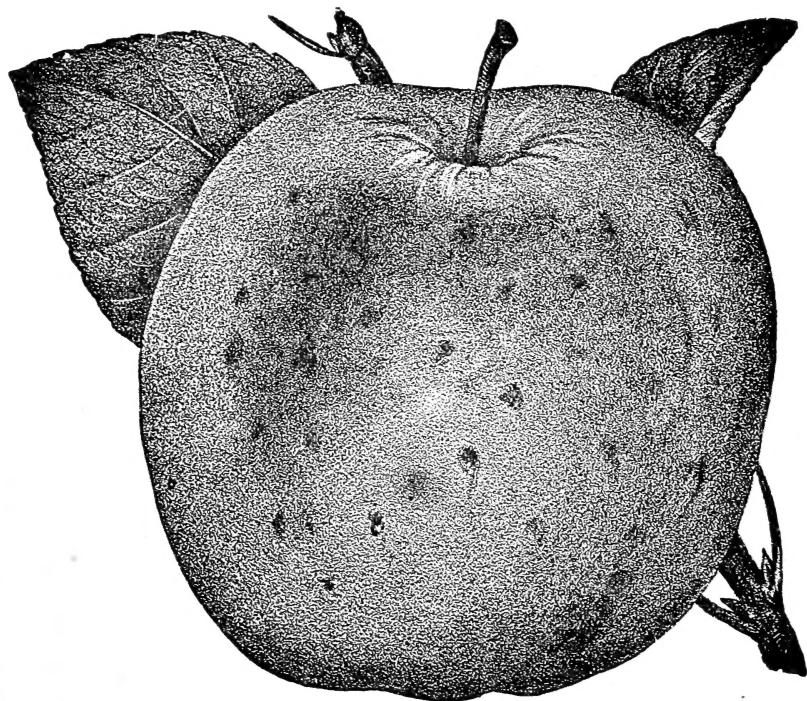

Remittance can be made by Money Order on Prospect, Va., Express, Draft or individual check when satisfactory bank reference is given.

## SPECIAL VARIETIES.

**Apples—Ivanhoe and Roberson**—First-class, 5 to 7 feet, each, 75 cents; per 10, \$5.00.  
One year, mailing size, 3 to 4 feet, *prepaid*, each, 50 cents; per 10, \$4.00.

**Varieties. Ivanhoe**—A chance seedling, first introduced by us some years ago. It has proven, after thorough testing of many years, to be a very valuable apple, and the *best keeper* as yet introduced, having kept in our cellars until September 22d, the following year after it was gathered. Tree hardy and very productive; bears young, sometimes at two years old in nursery row, and bears *every year*. Size above medium; yellow with a slight blush, sometimes in the sun. Flavor excellent, crisp and sprightly, of the Pippin type. Resembles the Albermarle. Sent by Mail, postpaid, for 50 cents each.

We invite special attention to the great facilities now offered by the Post Office Department for sending trees, vines and plants in packages of four pounds or less, with safety and despatch, to any part of the country. Our experience enables us to pack them so they will reach our customers in perfect condition.

Owing to the want of space we can give only a few of the many complimentary testimonials we have received in regard to this variety.

The Editor of the *Southern Planter*, of Richmond, Va., in the December number of 1888, says: "We have eaten the Ivanhoe Apple, and find it firm, after the likeness of the Albermarle Pippin. Very juicy and rich in flavor. It is a *very fine apple* and *should be carefully propagated*."

The Hon. H. E. Van Deman, U. S. Pomologist, Washington, D. C., says September 23, 1887: "After eating the apple I should judge the variety to be a good keeper, and of good quality." April 9, 1890, he says: "The Ivanhoe *proves* to be a good keeper."

**Roberson**—Origin, Virginia. Large striped and splashed with red. Of first quality. Keeps until March. A very desirable apple.

## PEACH.

First-class, 4 to 6 feet, per 10, \$2.50; per 100, \$18.00.
